GMA Journeys Across the World

From the ancient cobblestones of Rome to the golden plains of the Serengeti, from Kyoto's lantern-lit temples to the turquoise coves of the Albanian Riviera, the world GuideMeAway designs in is vast, varied and endlessly compelling. These are destinations that reward the traveller who arrives with the right itinerary, the right introductions and the right pace.

Every route we design moves between the iconic and the unexpected. From a Tuscan hilltown at dusk, a private game drive at first light and a sushi-making session in a Tokyo kitchen to a boat drifting along the Himare coastline, these are the moments that define a journey and they do not happen by accident. They are designed.

Every journey in this portfolio began with a single conversation. A traveller with a destination in mind, a feeling they wanted to chase or a trip they had been putting off for too long. GuideMeAway took that starting point and designed everything around it, from the pace and the places to the moments in between. If you are ready to travel the way you have always imagined, we are ready to design it for you.

THE JOURNEY

This is a journey for travellers who want to go deep. The cities here are iconic, but the way we move through them is anything but ordinary.

From the underground chambers of the Colosseum to the John Lennon Wall in Prague, from West End theatre to the ancient passage tombs of Newgrange, every day is layered with intention. Sacred sites sit alongside great museums. Garden visits follow opera evenings. This is cultural travel designed for people who want to feel a place, not just see it.
